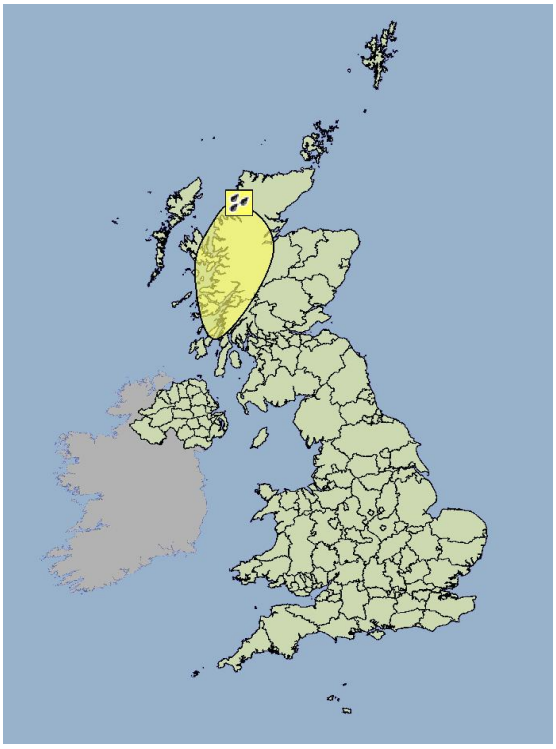
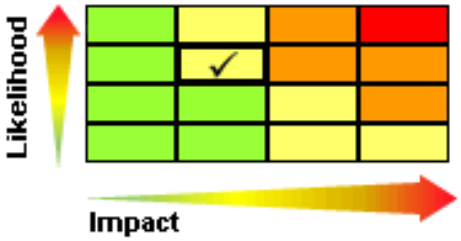
National Severe Weather Warning Service





Chief Forecasters Assessment
A developing area of low pressure is expected to track northeast through today crossing Northern Ireland and northwest Scotland to lie over the Moray Firth by late Sunday evening. It will bring a spell of heavy and persistent rain to parts of western Scotland and this combined with some snow melt is expected to bring a risk of some travel disruption due to localised flooding of land and roads.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **14:00 on Sun, 26th Feb 2017** until **22:00 on Sun, 26th Feb 2017**

Rain will become persistent and turn heavy at times this afternoon, gradually clearing away later this evening.

There is the potential for localised flooding and difficult travel conditions.
